

Better Babies

A constipated infant begins life heavily handicapped. Constipation means infinitely more than mere failure of the bowels to move regularly and thoroughly. It means stagnation of waste matter, production of irritant and poisonous substances, and their absorption into the blood by which they are carried all over the body.

Cells are poisoned, growth interfered with, and a soil prepared in which germs of disease easily take root and develop. Constipation in infancy is a bad habit, but giving an infant drugs to force the bowels to move is a crime. A baby is like a bud-both may easily be blasted.

The Nujol Treatment for Constipation is not only absolutely harmless, but is in the highest degree efficient.

Nujol is not a drug, does not act like any drug. Nujol helps Nature to overcome the bad habits by re-establishing natural, easy, thorough bowel evacuation, as regular as clockwork.

Every drop of Nujol taken into the body comes out of the body. But in its passage through the intestinal canal, it keeps the bowel contents soft and moist, makes it easier for the intestinal muscles to act, absorbs poisons and helps to discourage

The home guard training ground of Civil War times was on the site of the S. J. Reuter & Son big greenhouse plant, now closed and gradually deteriorating. There were several companies of home guards in Westerly, one being captained by Thomas Salt, who was born in Steakers. one being captained by Thomas Salt, who was born in Stockport, England, October 1, 1826, and died at Reinbeck, Iowa, September 30, 1804. In 1853, with his family of eight, he moved to the United States and was employed as designer in the milis at White Rock. September 29, 1862, he enlisted in Company A, Twelfth Rhode Island Infantry. After participating in several skirmishes, he was wounded in the battle of Frederickburg and was honorably discharged.

was honorably discharged.

The home guard was then organizing in Westerly and he organized and took command of one of the companies that drilled on the Beach street train-

ing ground.

In 1869 Mr. Salt settled on a farm in Grand township, six miles north of Reinbeck. He helped organize the first Sunday school in the township and served as superintendent and teacher of the Bible class, and also taught at winter torm at night school. In 1877 Mr. Sait moved to Reinbeck where he opened a hardware store, which at that time contained only thirteen buildings. He afteronly infriest buildings, words engaged in the grocery and dry goods business and retired in 1889.
Reinbeck finally became a city, and Mr. Salt was the first mayor, was also postmaster four years.

The ancient training ground and all other real estate of the Reuter estate, was sold at public auction Tuestate, was sold at public auction Tuesday, by order of the superior court, under the direction of Judge Edward M. Burke, master in chancery. The Washington Trust Company bought the greenhouse property, the dwelling adjoining, and the farm of ninety-six acres, more or less. The trust company made the purchases to protect mortgages. Two houses and a building lot in Clark street were bid in by Max Norogroski. The farm was bid in for \$4500, the Reuter residence for \$4-200, and the greenhouses and land for \$18,000. Max Norogroski's bid for one house in Clark street was \$1090, for the other \$1500 and for the lot \$201.

Should present plans mature, and the challenge of Alberia A. Archambault, democratic candidate for governor, to Governor B. Livingstone Beeckman, to publicly discuss state issues. Westerly is likely to be selected as one of the places where the in-teresting debates will be held. The democratic numines has invited the republican nominee to meet with him in open debate during the present campaign. Mr. Archambault declares the campaign will be brief and that voters will not have time to attend many political rallies, and he therefore urges bi-partisan meetings. He also states that he believes this the best way to present the various issues before the voters in the cam-

paign.
Mr. Archambauit gives a list of the questions, all of which he claims are issues of great importance. He tells Governor Beeckman he will take the affirmative of each question, thereby selecting not only the debatable questions, but also selecting his side for the debate. He suggests that if the proposition meets with Governor Beeckman's approval the meetings may be arranged at once by their representatives.

In the Second District court, before Judge Nathan B. Lewis, Annie P. Wil-cox, on complaint of Henry S. Procfor Jr., agent of the Rhode Island So-cety for the Prevention of Crueity to Children, was charged with neglect of her child. Judge Herbert W. Rath-bun, counsel for Mrs. Wilcox. stated to the court that he was ready and ask ed that the case go to trial, Mr. Proc-tor stated that he was not ready as his witnesses had not been summon-

Then Judge Rathbun moved that the secused be discharged on the grounds that the arrest was made by a person to whom the writ was not directed, and also that no allegation of a crime had been committed in South Kingstown, or in the jurisdiction of the Second District court, as the writ was entirely silent as to the location of the alleged crime. Mr. Froctor moved for amendment of the writ.

Judge Lewis dismissed the case on ecount of misdirection and want of urisdiction.

No resident of Westerly was se-lected to serve on the jury at the No-vember trial of the United States Dis-trict court. Welcome F. Bliven of North Kingsrown, Stephen H.
